As a [user],

So that [I can know what I have requested and bought through this service],

I want to [check out my personal history record]

Scenario: Try to find what kind of products I have bought and requested

Given I am on MyPage (personal customized page)

Then I should see there are tabs I can switch to "history" page.

When I select "history" tab

Then I should be on the history page

And I should see there're list showing all my requested and bought products.

Sad path: Try to find what kind of products I have requested three weeks ago

Given I am on MyPage (personal customized page)

Then I should see there are tabs I can switch to "history" page.

When I select "history" tab and find that I cannot see where is the product I've requested three weeks ago

Then I should scroll the bar below on the history page

And I should see there're list showing by time-order all my requested and bought products.

Feature name (13) View my personal profile

As a [user],

So that [I can review and revise my registered profile],

I want to [visit and check my profile contents including personal reputation]

Scenario: Try to update my profile contents

Given I am on MyPage (personal customized page)

Then I should see there are tabs I can switch to "profile" page.

When I select "profile" tab

Then I should be on the profile page

And I can change email or upload a new profile photo on the profile page

And I should see my profile is successfully changed

Sad path: Try to upload a profile photo which size is too small/large

Given I am on MyPage (personal customized page)

Then I should see there are tabs I can switch to "profile" page.

When I select "profile" tab

And I want to upload a new profile photo on the profile page

When I pick up a photo which size is either too small or too large

Then I press the 'upload' button

Then there will pop out a message saying that 'picture size too small/large' and indicate how many the size is available

And I should be on the same upload picture page again and re-upload another photo

And after that I should see my profile is successfully changed

Feature name (14) Change password

As a [user],

So that [I can protect my account safety],

I want to [change my password regularly]

Scenario: Try to change my password

Given I am on MyPage (personal customized page)

Then I should see there are tabs I can switch to "profile" page.

When I select "profile" tab

Then I should be on the profile page

And I can press the "Change password" button on the profile page

And I should be allowed to type new password after verifying my identity.

Sad path: Try to change a password which is the same as the original one

Given I am on MyPage (personal customized page)

Then I should see there are tabs I can switch to "profile" page.

When I select "profile" tab

Then I should be on the profile page

And I can press the "Change password" button on the profile page

Then I type in a new password which is the same as present one
Then there will show a message warning that 'your password is the same'
And ask you to type another one
And I should be on the same page to type new password again.

Feature name (15) view ranking

As a [user],

So that [I can check details about my reputation],

I want to [view detailed information about ranking scores]

Scenario: Try to find out more detailed information about ranking

Then I should see there are tabs I can switch to "profile" page.

When I select "profile" tab

Then I should be on the profile page

When I see there are a ranking score and a "view" button

And if I want to view more detailed information and cannot find how the ranking score is calculated

When my mouse cursor move to the number (i.e. 85%)

Then I will find out there is also hyperlink linking to the same page as the "view" button

And I should see pie chart, detailed quantity information in a pop-out window

Feature name (16) exchange messages and communicate with others

As a [user in a task],

So that [I can ensure no misunderstanding in communication and protect my privacy],

I want to [send private message to requester/buyer only to reduce information loading]

Scenario: Try to negotiate an appropriate time for receiving my requested product

Given I am on MyPage (personal customized page)

Then I should see there are tabs I can switch to "profile" page.

When I select "profile" tab

Then I should be on the profile page

When I see there is a "Mailbox" button

Then I can press the "Mailbox" button on the profile page

And I should be allowed to send private message to specified user(buyer)

Sad path: Try to send a private message instead of leaving a comment on the request content page

Given I am on the request content page and want to send message to the buyer

But I don't want to leave comments which is public to everyone

Then I move my mouse cursor to the buyer profile icon showing on the same page

When I click on the small icon of buyer

Then I will be linked to the mailbox where I can send a private message to the specified user(buyer) with the mail address automatically typed in address bar

Feature name (17) share products information and post comments or info on FB wall
As a [user],

So that [I can invite more people to help me or share products which I want to buy],

I want to [post information to FB wall directly from the request content wall]

Scenario: share request content to FB
